Local ISP - DakotaCom.Net, announces new product launch and first ever public tour of the "Dakota Data Vault"

Contact: Laurie Thomas 745-3900

Tucson, Arizona Local Internet Service provider, DakotaCom.Net, is launching several new products and hosting public tours of their new facility located at 4003 E. Speedway, Suite 110 on Thursday, February 16th 3:00 - 6:00 pm. John C. Scott of Tucson's Jolt 1330 will be broadcasting live at this first ever event.

DakotaCom.Net has been a leading Internet Service and Data Solutions Provider for the past 10 years, recognized in the community, received many awards and supports over 100 local non-profit agencies. DakotaCom.Net employs 16 people, supporting over 5500 customers and is the largest, privately owned internet solutions provider in Southern Arizona.

Bill Bosmeny, President of DakotaCom.Net says, "In addition to specializing in providing high-availability services, we are launching several new products that our customers have requested. These include our new internet telephone (VOIP) product, online backups, firewalls, and monitoring services. Come see what Dakota can do for you!"
